## **GENERAL INFORMATION SHEET FOR MOZAMBIQUE**

### **Firearms**

It is possible to hire firearms, however we recommend clients to bring their own rifles, shotguns and ammunition. Clients hiring weapons will be charged \$40 per day, regardless of calibre, make and if he or she actually fires the weapon or not. This does not include ammunition which will be charged separately.

In Mozambique you are required to send the operator your rifle details at least two months before your safari is due to commence. A Mozambican gun permit is then processed at the fee of \$250 per weapon and you will need to have this permit on you at your first port of entry into Mozambique. A maximum allowance of two rifles and one shotgun with 40 rounds per weapon is allowed into Mozambique.

For dangerous game such as elephant, buffalo and lion, calibre's of .375 or bigger must be used. For soft skinned animals, any weapon in the 7mm or .38/.300 range may be used. For the heavier calibre weapons we prefer a mixture of solid and soft nosed ammunition whilst just soft nosed bullets are preferred for the lighter calibre weapons. Trophy bonded, Swift A-Frame or Barnes X are good choices.

## **Travel With Rifles**

Clients who transit through Johannesburg, South Africa on their way to us will have to complete firearms forms for South Africa. We recommend using a company called Air 2000. Their email address is [air2000@global.co.za](mailto:air2000@global.co.za) . You can speak to a lady by the name of Anne Gaines-Burrill. Anne's cellphone number is +27 82 770 2480.

## **Weather**

The Summer months are from September to April with day time temperatures ranging from 85 - 100 degrees F in our hunting areas.

The Winter months are from May to August with day time temperatures ranging from 65 - 85 degrees F. Our rains normally start in the middle of November and end in March.

## **What To Pack**

The following list is only a general guideline of what to bring on safari. Please remember laundry is done on a daily basis.

- Four sets of brown, green or dark khaki lightweight safari outfits.
- A soft comfortable hat.
- Good walking boots that are quiet and worn in.
- A sweater and windproof jacket for the cool early mornings and evenings.
- Cameras.
- Convertor.
- Binoculars.
- A sharp knife.

*When chartering an aircraft, soft bags are preferred as opposed to hard cases. It is advisable to attach cable ties to your bags after inspection at airports, this way preventing any theft in transit.*

Cost of Charter from Beira to C12 - \$1500 one way / plane.

## **Staff Gratuities**

If clients would like to give gratuities to the staff please bring some small denominations in cash.

## **Transport**

Clients will be met at the nearest airport to travel by transfer vehicle or charter aircraft to their hunting area. During the time of any safari it is often necessary to move hunters from one area to another. The distances could be great and are either done by road or air charter. Days in transit from one hunting area to another are considered as hunting days and should a hunter, in order to

save time, request a chartered aircraft, this will be at his or her own expense.

Cost of Transfer from Tete to Tandikwe Camp - \$600 one way for the vehicle.

Cost of Transfer from C11/C12 to Tandikwe Camp - \$400 one way for the vehicle.
